NOT ALL WAXES ARE THE SAME...

Depilève manufactures using only the best quality ingredients available from around the world. In addition, specific selections of rosins are used for their excellent adhesion properties, color and inalterability giving Depilève waxes a unique distinctiveness from the rest. A rigorous quality control guarantees the pristine condition of the epilatory wax that will always satisfy the excellent results that you should expect time after time.

CERAZYME®
4G SKIN CARE EPIRATION

**Who said everything
in wax epilation was
already invented?**

The new CERAZYME® range by Depilève represents a step beyond in the world of aesthetics. An innovative protocol that unites skin rejuvenation with a delicate and painless hair removal for a unique skin care epilation treatment.

BREAKING THROUGH BARRIERS

Cosmetic laboratories are constantly working every day to develop new active ingredients that are more efficient and have a lower molecular weight to penetrate and assimilate easier into the skin. However, reaching the deepest layers of the epidermis is still the large workhorse: how to achieve passing through the natural skin barrier.

For this purpose many systems have been developed such as Mesotherapy, radiofrequency, and other technologies that act as “virtual needles”, but of course are more expensive as an investment for the professional and cost to the customer.

Now, imagine you can introduce these active ingredients into the deepest layers without additional cost and at the same time offer a painless and effective hair removal? Today, this is now possible.

We will tell you how:

The patented CERAZYME® wax is the first ever worldwide to mix water soluble ingredients in an oil soluble base. This means that today it is possible to apply a cosmetic skin care treatment simultaneously while waxing.

The temperature of the wax opens pores to create thousands of microchannels for enhanced active ingredient penetration, while also increasing the blood supply. The wax also creates a layer that traps in active ingredients and promotes absorption for a cosmetic mask that is second to none.

**Discover Depilève Cerazyme®,
a waxing treatment that pampers skin**

**WHAT PARTS OF THE BODY CAN BE TREATED WITH CERAZYME®?
YOU CHOOSE THE RESULT ACCORDING TO THE FORMULA:**

FACIAL WAX:

Upper lip: reduce wrinkles (bar code) and lighten spots.
Eyebrow shaping: brighten appearance, treat spots and tone skin.
Reduce pores on nose: cleanse pores, remove hair and small blackheads.
Chin, cheekbones, sides of the face and forehead: brighten face as a whole and turn back the clock with all-over rejuvenation.

INTIMATE WAX:

Underarm: tone or lighten skin.
Bikini: lightening and firming.
Partial Brazilian: provides a uniform effect and rejuvenated skin.
Full Brazilian: lightening and firming effect.

BODY WAX:

Arms: even appearance and treatment of flabbiness.
Hand: lighten unsightly spots and prevents aging.
Upper leg: firm and boost brightness.
Full leg: more even, toned legs.

SKIN CARE EPILATION

CERAZYME®

REJUVENATION

NEW CONCEPT IN SKIN REVEALING

- CERAZYME's beauty protocol drenches the skin with Q10 enzyme, DNA and NMF creating a microfilm skin barrier that protects the skin for a painless hair removal.
- Prolongs youthful looking skin.

ACTIVE INGREDIENTS

- **Q10 Enzyme** - Natural anti-oxidant synthesized by the body. Improves the skin's firmness.
- **DNA Filaments** - Stimulate, protect and repair the skin's cells from within. Rejuvenating effect.
- **NMF (Natural Moisturizing Factor)** - Intensive moisturization for the stratum corneum. Maximum hydration.
- **SPF15** - Protects the skin against sun exposure after epilation. Avoids redness or irritations after hair removal if exposed to sun.

DERMA PLANING EFFECT

Effectively removes dead skin cells and vellous hairs.

PORE REFINING

Unclogs pores and easily remove extractions.

SKIN REJUVENATION

Anti-age hair removal treatment.

NO STRIPS REQUIRED

Painless epilation even for the most sensitive skins.

BEFORE

AFTER

- Patented dual color formula acts first as a mask to open pores and favor active ingredient absorption.
- Its initial heating effect creates a cocoon that opens pores boosting its antiaging and intensive moisturization effects to obtain an immediate visible skin glow and rejuvenation effect.

Unveil beautiful and gorgeous skin with CERAZYME®

CERAZYME DNA

DNA Mask Wax

Exclusive patented striplless wax formula infused with DNA Filaments and Natural Moisturizing Factor with anti aging and skin rejuvenating properties to reveal beautiful and gorgeous skin.

400 g • VCDECZ400
800 g • VCDECZ800

DNA Mask Rosin Wax

This new formula gathers all the advantages of the Cerazyme® concept but at a very low temperature application since it is formulated with pine rosin.

400 g • VCDEDNR40
800 g • VCDEDNR80

DNA Mask Strip Wax

Version of the rejuvenating treatment Cerazyme DNA with strips, for fast and low-cost epilation over large areas (legs, back...).

400 g • VCDEDNB40
800 g • VCDEDNB80
100 ml • VCRDDNR10

CERAZYME DNA

Make-Up Remover

Formulated with Calendula (Marigold) Extract and Bisabolol. Fluid cleanser that delicately removes all makeup, including water resistant, preparing the skin for epilation.

500 ml • VEDCZD500

DNA Facial & Intimate Concentrate

Serum formulated with anti aging ingredients for facial, underarms and intimate bikini areas.

8 ml • VECZSFDN9

DNA Cream

Facial cream infused with DNA filaments, Q10 enzyme, Andiroba oil & SPF 15. Anti aging time rejuvenation cocktail with sun protection factor helps to prevent wrinkle formation for a rejuvenated skin.

50 ml • VEDCZD050
200 ml • VEDCZD200

DNA Body Concentrate

Serum specially formulated to treat body areas and combat the effects of skin aging: muscle loss, loose skin, dryness, dark spots and dehydration, etc.

6x30 ml • VECZSBD30

DNA Body Balm

Body balm with SPF 15, formulated with DNA Filaments, Q10 Enzyme, NMF and Andiroba oil for moisturizing, nourishing and soothing effects.

500 ml • VEDCZB500

depilève®

SKIN CARE EPILATION

CERAZYME®

DEPILBRIGHT

SKIN LIGHTENING

Hair removal treatment with clarifying skin effect.

DERMAPLANING EFFECT

Removes vellous hair and dead skin cells for a delicate exfoliation.

PAINLESS EPILATION

Very low temperature wax with no strips ideal for any skin type or area.

FADES SPOTS

Acts on hyperpigmentation, blurring them and preventing the appearance of new ones.

NOSE PORE REFINING

Remove blackheads and unblock the pores for a pleasant sensation of freshness and cleanliness.

SKIN LIGHTENING

CERAZYME® DEPILBRIGHT is the new CERAZYME® skin lightening range. It clarifies the general skin tone, fades spots and prevents the appearance of new ones while painlessly removing all hairs. During the entire protocol the skin is drenched with White Mulberry and Gatuline® Spot-Light creating a microfilm which is easily absorbed by the skin.

ACTIVE INGREDIENTS

Gatuline® Spot-Light - 97% of volunteers noted their skin lighter.

Citrus Unshiu extract (Japanese Mandarin Peel) - reduced the melanin by 50%.

Alpha-Arbutin - Biotechnological active ingredient that inhibits Tyrosinase activity.

White Mulberry - reduces pigmentation in the skin.

SPF 20 - protects the skin after hair removal and prevents the appearance for new spots.

Today with the Cerazyme range you can alternate your skin care treatments with your customer by using also using the Rejuvenation DNA products. You can alternate treatments by treating skin lightening and wrinkles/expression lines. Simply choose the serums of your choice to perform the treatment you desire.

Unveil beautiful and gorgeous skin

CERAZYME DEPILBRIGHT

Depilbright Wax

New rosin film wax that when is first applied acts as a mask, causing pore dilation and blood flow creating thousands of micro channels through which the active ingredients are dispersed and absorbed.

400 g • VCDERB400
500 g • VCDERBP50
800 g • VCDERB800

Depilbright Strip Wax

Delicately brightens and exfoliates all areas of the body. Effective and virtually painless hair removal for the ultimate skin care epilation.

400 g • VCDEBB400
800 g • VCDEBB800
100 ml • VCRDDR10

CERAZYME DEPILBRIGHT

Make-Up Remover

Formulated with Calendula (Marigold) Extract and Bisabolol. Fluid cleanser that delicately removes all makeup, including water resistant, preparing the skin for epilation.

500 ml • VEDCZD500

3G

Revolutionary 3G waxes that are thinly applied as strip waxes and simply removed when dry using no strips. Film waxing is painless, absolutely hygienical and economical.

The best of the best!

No strips!!

**Painless hair removal
for smooth, soft,
beautiful skin.**

100% natural formulas including Shea Butter, Monoï of Tahiti, Cocoa Butter and Ginseng oil ideal for waxing intimate, facial and body areas. For Brazilian Waxing we recommend Intimate wax.

FILM WAXING

AND THE WINNERS ARE...

Monoï of Tahiti Film Wax

Pearly green formula with an elastic texture and low melting point. Enriched with Monoï of Tahiti ideal for all skin types even for the most sensitive areas.

400 g • VCDESM400
800 g • VCDESM800

Intimate Film Wax

Formula with superior grip and very low temperature application ideal for intimate, brazilian and hollywood waxing. Enriched with Cocoa butter and Oat extract for a protective moisturizing soothing effect.

400 g • VCDEIN400
800 g • VCDEIN800

Natural Film Wax

Extremely elastic and fast-drying film wax. Extraordinary removal. Also available in pearls for easy dosing.

800 g • VCDEFN800
1 Kilo • VCDEFN01

Bronze film Wax for Men (with salicylic acid)

Waxing men requires a specific product since their hair is tougher and stronger. This formula removes even the toughest hair from any body area while treating ingrowns with the salicylic acid. Enriched with Ginseng oil to protect and repair the skin while minimizing pain threshold.

500 g • Film wax • VCDEBR50
800 g • Strip wax • VCDEBR800

Karite Film Wax

Formulated with Pure Shea Butter, specially recommended for those professionals that prefer the texture of traditional waxing with the hygienic advantages of strip waxing. Perfect for delicate skins with a low pain threshold. Rich, creamy consistency with a soft, gentle pull. Also available in beads for faster meltdown and using the quantity desired.

500 g • VCDESKA50
800 g • VCDESKA80

Premium Cream Wax

Extraordinary creamy formula. Ideal to remove short and stubby hair. Sets quickly and does not break or become brittle.

500 g • VCDEPC500
800 g • VCDEPC800

STEP BY STEP FILM WAX

Highly professional, effective, comfortable and painless! Film waxes are applied thinly and simply removed without any strips. They are elastic, fast drying and very gentle to the skin.

UNDERARMS

1

Soak a tissue in Dermobalance Lotion and clean the area rubbing in the the direction of the hair growth.

3

With the tip of the spatula in vertical position spread the wax in the direction of the hair growth leaving the edges slightly thicker like an oval strip.

2

Apply a drop of Pre-Oil to create a skin barrier and minimize pain when removing. Stretch the skin in the opposite direction of the application and apply a thin layer of wax over the area.

4

Lift the wax to get a grip and hold the skin tight with the other hand. Quickly remove the wax strip in the opposite direction of the hair growth. Apply #4 Cream Concealer to soothe and moisturize.

BIKINI LINE

1

Soak a tissue in Dermobalance Lotion and clean the area rubbing in the the direction of the hair growth.

3

With the tip of the spatula in vertical position spread the wax in the direction of the hair growth leaving the edges slightly thicker like an oval strip.

2

Apply a drop of Pre-Oil to create a skin barrier and minimize pain when removing. Stretch the skin in the opposite direction of the application and apply a thin layer of wax over the area.

4

Lift the wax to get a grip and hold the skin tight with the other hand. Quickly remove the wax strip in the opposite direction of the hair growth.

5

Apply the first strip on the lower part of the groin and another on the upper part leaving a space between them. Apply #4 Cream Concealer or Vitalderm to soothe and moisturize.

STEP BY STEP FILM WAX

EYEBROWS

1

Soak a tissue in Dermobalance Lotion and clean the area rubbing in the the direction of the hair growth.

3

With the tip of the spatula in vertical position spread the wax in the direction of the hair growth leaving the edges slightly thicker like an oval strip.

2

Apply a drop of Pre-Oil to create a skin barrier and minimize pain when removing. Stretch the skin in the opposite direction of the application and apply a thin layer of wax over the area.

4

Lift the wax to get a grip and hold the skin tight with the other hand. Quickly remove the wax strip in the opposite direction of the hair growth. Apply #4 Cream Concealer to soothe and moisturize.

LIP WAXING

1

Soak a tissue in Dermobalance Lotion and clean the area rubbing in the the direction of the hair growth.

3

With the tip of the spatula in vertical position spread the wax in the direction of the hair growth leaving the edges slightly thicker like an oval strip.

2

Apply a drop of Pre-Oil to create a skin barrier and minimize pain when removing. Stretch the skin in the opposite direction of the application and apply a thin layer of wax over the area.

4

Lift the wax to get a grip and hold the skin tight with the other hand. Quickly remove the wax strip in the opposite direction of the hair growth. Apply #4 Cream Concealer to soothe and moisturize.

CHIN WAXING

1

Soak a fissue in Dermobalance Lotion and clean the area rubbing in the the direction of the hair growth.

3

With the edge of the spatula in spread the wax in the direction of the hair growth leaving the edges slightly thicker like an oval strip.

2

Apply Pre-Oil to create a skin barrier and minimize pain when removing. Stretch the skin in the opposite direction of the application and apply a thin layer of wax over the area.

4

Lift the wax to get a grip and hold the skin tight with the other hand. Quickly remove the wax strip in the opposite direction of the hair growth. Apply a slow growth serum ampoule and then your choice depileve after wax lotion.

Lotions and Potions

Waxing removes dead skin cells on the surface producing a light exfoliation.

Using Depileve skin care will differentiate your beauty protocol and reveal your customers beautiful skin.

Selective Cosmetics

LOTIONS

Pre Base Gel # 1

Gel Formula which cleans skin to improve the adherence of the wax. With Hammamelis and Oat extract. Apply it before using traditional or strip waxes.

500 ml • VEDGPB50N
200 ml • VEDGPB20N

DermoBalance Lotion

New pre-epilation lotion which perfectly cleans the skin for a perfect pull. Specially indicated to be used before applying Film waxes.

220 ml • VEDEDB220

Pre Waxing Oil

New oil with Apricot and Chamomilla extracts applied before all Film waxing treatments. This oil creates a protective barrier for the skin dramatically reducing the pain before removal. Apply a small amount and rub into skin. Remove residue with a tissue.

220 ml • VEDEPW220

Milk Cleanser # 2

Post-depilatory emulsion removes wax residues while deeply moisturizing the skin after waxing. Enriched with Calendula and Oat extracts.

500 ml • VEDGLL50N
200 ml • VEDGLL20N

Oil Cleanser # 3

Moisturizing massage azulene oil applied after hair removal. Removes wax residues and softens the skin. Enriched with Wheat Germ extract.

500 ml • VEDGH050U
350 ml • VEDGH035U
220 ml • VEDGH022U

Soothing Cream

Inflammatory or allergic reaction after hair removal? Apply a thick layer and leave for skin to absorb. Immediately reduces redness while evening the skin tone. Infused with Camomile and Aloe Vera extracts.

200 ml • VEDGCC20N

LOTIONS

HAIR GROWTH INHIBITORS

Tea Tree Gel

Cryogenic gel calms and refreshes the skin after waxing. Helps to close pore dilation and acts as a balm. Includes Witch Hazel and Tea Tree Oil to revitalise, moisturise and soothe the skin after hair removal.

500 ml • VEDGTT50N - 200 ml • VEDGTT20N

Vitalderm PH

Post-epilation acid cream which equilibrates the pH of the skin and avoids the appearance of redness or irritations after hair removal. Excellent for intimate waxing.

200 ml • VEDEVD200

Depilmousse

Dual-purpose mousse effectively weakens hair growth and produces a refreshing and relaxing feeling on heavy and tired legs. This product is ideal for home use and should be used between waxing treatments to accelerate hair weakening.

200 ml • VEDEDM200

Hair Inhibitor Serum

Apply immediately after hair removal taking advantage of the pore dilation. Helps continue the anti keratinization process while leaving the skin fresh and soft. If there is wax residue after hair removal apply the ampoule first and then the milk or oil cleanser.

20 uds. • VEDGDV020

3 uds. • VEDGDV003

FOLISAN

depilève®
NO Ingrowns
Pimples
Razor Burns

Intimate Folisan

- Treats and prevents ingrown hairs on any area after hair removal.
- Pimples appearing after hair removal quickly disappear after application.
- Quickly reduces skin redness and irritation after shaving and hair removal.

Folisan

Prevents ingrown hairs and razor bumps. Produces a surface exfoliation that allows the hair to break through the skin without obstruction. Excellent to treat acne after waxing. Also relieves the irritation that causes razor bumps. Women can use it on bikini line, underarms, legs, and facial areas. Men can apply it on beards, neck, back, chest and legs.

150 ml • VEDEL150

Intimate Folisan

Roll-on applicator bottle in a gel formula allows application in hard to reach areas and on precise locations. Great retail product for home use. Recommended to be used a few days after hair removal to avoid pimples and ingrown hairs.

6 x 10 ml • VEDEL006

Waxing Mirror

Square mirror with Depilève logo so that the client can check the waxing result.

VPDEES001

Depil White Pencil Template Liner

SCDE PE01

PARAFFIN TREATMENTS

Pamper your Clients

Depilève paraffin therapy is a deep moisturizing and skin conditioning treatment. It is easy to apply and delightful for your clients to receive. Paraffin works as a sealant that traps in heat and moisture, opening up the pores, like a mini-sauna. The active ingredients are rapidly absorbed revealing beautiful skin. The full range of products are designed to complement the therapeutic effect of paraffin and optimize its cosmetic results.

Deep Moisturization

depilève®

PARAFFIN TREATMENT

CERAZYME®

SOFT BRIGHT

HYDRATED, SOFT AND
SILKY HANDS BRIGHTER,
SPOT-FREE SKIN

THE FIRST PARAFFIN TREATMENT WITH LIGHTENING EFFECT

Uniform, bright skin is synonymous with youth and beauty. Which makes dark spots even more of an issue when they appear. Hyperpigmentations may appear in patches or in a localized area and intensify after sun exposure without adequate protection. For this reason, they appear mainly on body parts that are frequently exposed, such as the face, neck, hands and arms.

Today, Depilève unveils a revolutionary and groundbreaking treatment for dark spots, designed to bring out skin's radiance.

Our hands say a lot about us, and covering up signs of aging on the hands is harder than any other area of the body. With Depilève Soft Bright your hands will recuperate their pampered, moisturized look; the treatment lightens spots for brighter, more radiant skin.

But how does Cerazyme® Soft Bright work and why is it more efficient than other lightening treatments?

1. With its special chemical structure, paraffin locks in active ingredients to ensure absorption down to the deepest layers of the skin. Moreover, the temperature of the wax prevents moisture loss, creating a sauna effect that opens pores and makes it easier for the skin to absorb the product.

2. Use of biotechnological active bleaching ingredients:

- **Gatuline Spot Light:** It is the first ingredient that acts against spots and skin darkening at both epidermal and dermal level.

It significantly reduces the visibility, the size and the density of spots, while carrying out corrective action on the skin tone.

After 84 days of use, 97% of volunteers responded the product lightened the skin tone.

- **White Mulberry:** Various studies show that it slows down the skin pigmentation caused by the Sun's rays to reduce the level of melanin in the epidermis by inhibition of tyrosinase.

- **Alpha-Arbutin:** Unique ingredient developed by biotechnology to inhibit tyrosinase, one of the major enzymes involved in spot formation.

GIVE YOUR HANDS THE STARRING ROLE THEY DESERVE!

CERAZYME SOFT BRIGHT PARAFFIN

Soft Bright Paraffin

Premium quality paraffin for a truly effective moisturising and brightening treatment. It is enriched with 2 unique depigmentation agents (Alpha-Arbutin and White Mulberry), which lighten the skin tone and inhibit the production of tyrosinase. 2,7 Kilo Box. (6 lbs.)

VCDEBP006

Soft Bright Hand Cream

Non-greasy hand cream with a brightening and anti-blemish effect. It moisturises and nourishes the skin deep and optically plumps wrinkles, ensuring skin is more radiant than ever.

Tube:
50 ml • VEDEBHC50
Display:
6 x 50 ml • VEDEBHC06

Depilbright Body Serum

Body serum formulated with brightening vegetal ingredients as Gatuline® Spot Light and Citrus Unshiu extract.

30 ml • VEDEBBR30

Depilbright Body Lotion

Body lotion formulated with Gatuline® Spot Light. Enriched with Shea butter.

500 ml • VEDEBL500

Dermo Spray

Antiseptic cleanser effectively cleans hands before the paraffin dip. Use it regularly to keep your paraffin warmer clean for longer.

220 ml • VEDESD220

Dermo Peel

Exfoliating gel-cream with Jojoba spheres. Preps the skin to optimize active ingredient absorption.

200 ml • VEDEEM200

STEP BY STEP SOFT BRIGHT

HANDS

1

Spray your hands and the customer's hands with Dermo Spray to remove all residues of cream and impurities and obtain a total hygiene.

3

Apply Depilbright Body Serum and lightly massage until absorption. This product contains the highest concentration of whitening active ingredients to fight against the dark spots and effectively lighting the skin.

5

Pour a cup of paraffin in a protector bag and introduce the hand inside. Distribute the paraffin all over the hand and close it. Cover it with a manicure mitten and secure the velcro closure. Let it set for 15 min.

7

Apply Depilbright Body Serum and lightly massage until absorption.

2

Massage over the hands up to the elbow with Dermo Peel. This effective peeling will softly remove the skin's dead cells to increase the active ingredients penetration. Continue with the massage until all the spheres are completely absorbed. Wipe the excess product with a tissue. It does not require rinsing.

4

Warm up and stir the paraffin with a spatula to obtain a perfect union between all the actives.

6

Then remove the paraffin from the wrist down into the protector bag and discard all used products.

8

Close the treatment with a small amount of Soft Bright Hand Cream. This products is perfect for daily use to continue the treatment and prevent new spots.

DEPILÈVE PARAFFIN

Deep Moisturizing Peach Paraffin

A delicate peach scented paraffin with Vitamin E and Peach oil that replenishes the skin's optimum moisturizing levels for long lasting hydration. Includes Avocado Oil and Monoï of Tahiti to improve the elasticity and smoothness of the skin.

2,7 Kilo Box. (6 lbs.)

VCDEPM006

Antioxidant Lavender Essential Oil Paraffin

New anti-oxidant formula enriched with hemp and grape seed oils to protect the skin from the damaging effects of free radicals and pollution. The lavender essential oil's relaxing properties soothe the hands leaving a delicate scent.

2,7 Kilo Box. (6 lbs.)

VCDEPL006

Energizing Tea Tree Oil Paraffin

Thanks to the antiseptic properties of Tea Tree Oil the skin is protected refreshing feet. Enriched with Ginger and Thyme essential oils that energize and stimulate peripheral blood circulation to deeply soothe sore feet.

2,7 Kilo Box. (6 lbs.)

VCDEPT006

Tropical Paraffin

Fruit cocktail formula with Mango Oil, Vitamins E and F, for an intensive moisturizing effect and a revitalizing aroma. The result is a luminous and beautiful looking skin.

2,7 Kilo Box. (6 lbs.)

VCDEPTR06

DEPILÈVE PARAFFIN

Milk and Honey Facial Paraffin

Low melting point paraffin specially formulated for facial treatments. Enriched with Milk peptides and Vitamin E for smoother and deeply moisturized skin. Use as a warm mask for most skin care treatments.

450 ml can.

VCDEPL450

Paraffin soft Cream

Paraffin cream that easily applies on hands and feet. Wrap with Osmotic film and use electric heated mittens or booties. Also great for clients that are heat sensitive or during summer when it is too hot for a paraffin dip. 450 ml jar.

VEDEPF500

1

Fix the gauze and apply with a brush up to 5 layers of warm paraffin to cover the whole face.

2

Let it set for 10 minutes to optimize the occlusive properties and maximize the absorption of active ingredients.

3

After the elapsed time lift the edges and lift to remove the entire mask.

WARMERS & TROLLEYS

Classic Paraffin Warmer

1,5 kilo compact paraffin warmer. Thermostat with two temperature settings (meltdown temperature at 65°C and normal working temperature at 55°C) with indicator light showing thermostat operation. In relaxing shades of orange and cream.

SCDE CP01

Facial Paraffin Warmer

Professional Warmer with adjustable thermostat, safety thermostat to avoid overheating and break resistant plastic lid.
